EDUCATION

BE/B.Tech | Information Technology

Nov 2022' - Present

Pune Institute of Computer Technology (PICT), Pune

High School | 12th Grade

2022

GG International School , Pune

PROJECTS

1. Student Performance Indicator

- A machine learning project analyzing factors influencing student test scores.
- Includes model tuning, deployment on AWS and Azure, and CI/CD pipeline setup.
- Learned practical application of ML concepts
- Learned Deployment Skills in Cloud Envs

2. Text Summarizer

- Learned Applying NLP and Deep Learning (DL)
- Learned Integration of Hugging Face APIs , Pegasus
- Learned End-to-End Project Deployment

3. Customer Churn Predictor

- Learned Building Predictive Models with ANN
- Learned Deployment with Streamlit
- Learned Effective Use of Historical Data

4. Next Word Predictor

- Learned Building Sequence Models with LSTM
- Learned Data Preparation for Sequence Modeling
- Learned Evaluating and Tuning LSTM Models

5. Imdb Movie Reviews Analysis

- Learned Implementing Simple RNN for Text Classification
- Learned Data Preprocessing and Embedding Techniques
- Learned different pipelines for implementation of end to end projects

6. SQL Project- Analyzing Engineer's Dataset

- Learned SQL Query Optimization and Advanced Data Manipulation Techniques

7. Analysis of Steam GameSite - PowerBi Project

- Created a Power BI dashboard to analyze 27,000 Steam games, highlighting top genres, player ratings, and ownership trends. Visualizations reveal insights into the most popular and engaging game categories.

TECHNICAL SKILLS ,LANGUAGES & CERTIFICATIONS

- **Technical Skills:** C++, Python, JavaScript, HTML, CSS, Flask, Streamlit, Pandas, Numpy, ScikitLearn, TensorFlow-Keras, Transformers, MLflow, Feature Engineering, Machine Learning (Sup & Unsup), NLP, Deep Learning, Matplotlib, Seaborn, PowerBI, Matplotlib, Seaborn, JupyterNB, SQL, GitHub, Linux, AWS Elastic Beanstalk & EC2, Azure DevOps, Docker, Statistics & Mathematics for ML & DL
- **Languages:** English, Hindi, Marathi, Sindhi
- **Certifications:** Complete Machine Learning,NLP Bootcamp MLOPS & Deployment

SOFT SKILLS AND INTERESTS

- Fast Learner
- Leadership
- Problem Solving
- Time Management
- Communication skills
- AI/ML
- DeepLearning & NLP
- Gen AI
- LLM's (Large Language Modules)
- Software Management
